

BEA TESTIMONIES

Tiger Rock Taekwondo has been using Big Ear Ads service for over a year. I am very pleased by the results we have received and still receive from Big Ear. Our Academy opened in January 08 with zero students. We now have over 100 students training at our facility. I know this would never have happened if it were not for Chad Bourquin and Big Ear Ads. Thanks to Mr. Bourquin and his company our Academy has grown tremendously and continues to grow. Thank you Chad and Big Ear Ads for all you have done and still do!

Big Ear ads has been our primary source of advertising since Spring 2006. In that time our business has doubled as a direct result of Big Ear door hangers. Prospecting for new business is no longer the time consuming event of the past and our advertising dollars go much further.

We have been using Big Ear Ads since October of 2005. Currently Big Ear Ads are the only Direct Mailing we are doing, due to their performance over other things we have tried.

As a new business starting in Olathe, Big Ear Ads was a great way for me to get my face out into the community. I had tried the mailers with no success and started the doorhangers in October of 2005.

With trying a number of advertising avenues, this is the ONLY advertising that I have stuck with and plan to remain with. Results are not immediate, but this has been the BEST way for me to reach all the residences in my area. I am extremely pleased with the quality of the ads and the monthly notifications of the deliveries.

By far the most effective advertising we have done. Big Ear Ads out-performed all other ads four to one.

We chose to advertise with Big Ear Ads to increase awareness in the community of Dr. Brooks' skin care center. One third of our new patients come to Covenant Skin Care because they saw our ad on the door hanger. Big Ear Ads is an upscale marketing tool that I'm proud to be affiliated with! It is important to me to advertise with a reputable and professional company. The staff at Big Ear Ads notifies me regarding delivery dates and is creative with design and layout of my ad.

Big Ear Ads has been our primary source of advertising for the past two years. They have proven to be the most effective and honest advertising for us in the Kansas City area. We highly recommend it.

It's my pleasure to recommend the BIG EAR program/product to anyone who is not a direct competitor.

We have used direct mail post cards, HyVee back of register receipt coupons, ValPak, and FSI's, and have found BIG EAR to be by far the most efficient vehicle. Cost per redeemed coupon is running 40% below Valpak and 60% below HyVee's register receipt program. Redemption rates have trended upward since beginning the program with them in 3/06. We have found Chad and the BIG EAR people to professional, responsive, and cooperative.
